

E-mail message for Dr Mark Corbett

Dear Colleagues

We all recognize problems and challenges in our Health Care System – access, closures, scope of practice, exclusion of physician input and expertise, overcrowding-among others, and we all place the highest value on our relationships with all of our colleagues with whom we face these challenges on a daily basis. Skills required to be successful in these times include an ability for meaningful listening, an openness to diversity of opinion, honesty and fairness, collaboration, willingness to examine structural change (including governance) and identification and focus on common goals. Experience as an elected Board Delegate, Executive member, and most recently as an Officer (**Honorary Secretary Treasurer 2011-2012**) has reinforced the importance of these skills in developing strong and effective working relationships with physician and surgeon colleagues, BCMA Staff, Health Authorities and Government. I commit to continuing to work on your behalf in this and future years.

Your vote is your voice in our BCMA. Please encourage your colleagues to vote-the higher the voter turnout, the more reflective the results will be of the wishes of the broad membership of our Association. If you wish more information before casting your vote, your elected Board Delegates can provide an experienced viewpoint on the issues in this election, and on the candidates running for the Officer positions. Your vote counts.

Please vote for **Dr. Mark Corbett** for **Chair of the General Assembly**.

Sincerely,

Mark Corbett.
